

## FAST-TRACK TO FINTECH

### ABOUT BLACKROCK

BlackRock's purpose is to help more and more people experience financial well-being. As a global investment manager and a leading provider of financial technology, our clients—from grandparents, doctors, and teachers to large institutions—turn to us for the solutions they need when planning for their most important goals. To achieve this, our workforce must reflect the diversity of our clients so that we can bring a wealth of perspectives and insights to solve their unique, complex challenges.

We already know that the best solutions result from the ideas and contributions of a diverse team of partners, and that more diverse teams tend to outperform homogeneous ones. But it's not enough to focus solely on building a diverse workforce. We take it one step further and ensure that each and every employee feels included, respected and valued – that they belong. We are building a culture of innovation, curiosity, and compassion, one that enables every employee to make an impact.

### TECHNOLOGY AT BLACKROCK

We innovate to solve some of the world's most complex financial challenges and turn data into meaningful insights for our clients. Our breakthrough [Aladdin](#) platform unifies trading, risk management and reporting into one system connecting the information, people and technology needed to manage money. At BlackRock, we are building the investment technology platform of the future.

### FAST-TRACK TO FINTECH

Our Fast-Track to Fintech insight event is designed to provide female students with an interest in technology the opportunity to get a taster into the world's largest asset manager and our evolving technology landscape. You'll learn how we reinvent the client experience, re-imagine how data flows across the organisation and integrate technology into investment decision-making. Participants will engage in talks, workshops, and networking events to gain the skills and knowledge necessary to build a fulfilling career. There will also be the opportunity to be considered for our 2023 Summer Internship Program.

This accelerator event will take place in our London & Edinburgh offices on **Monday 24<sup>th</sup> and Tuesday 25<sup>th</sup> October**, and virtually on **Friday 28<sup>th</sup> October 2022**. Participants selected for the accelerator must be available during all three days. The event provides an insight into [Aladdin Client Services](#), [Data Operations](#) and [Technology Operations](#) in Edinburgh, or [Software Engineering](#) in London.

### APPLICATION INFORMATION:

Candidates should be graduating from an undergraduate or master's degree program in 2024. We welcome applications from candidates studying any degree subject.

As part of the application process for this program, you will be required to fill in a short application form and submit a virtual cover letter to express your interest. You will have 5 calendar days from the time of application to complete the virtual cover letter part of the process. You will be notified of the outcome of your application in the mid-October. Please note that alongside your application to Fast-track to Fintech, you will also be able to submit a second application to the other Summer Internship Program you are eligible for.

**APPLICATION DEADLINE:** Friday 7th October 2022
